EDUCATION

- **Department of Engineering Mechanics, Zhejiang University** *Sept. 2024 – Present*
Ph.D. Mechanics
Supervisors: [Prof. W.Q. Chen](#) & [Prof. C.W. Lim](#)
- **Chu Kochen Honors College, Zhejiang University** *Sept. 2020 – Jun. 2024*
B.E.(Honors Degree) Engineering Mechanics ([Enrollment plan targets basics](#))
Supervisor: [Prof. W.Q. Chen](#)

RESEARCH INTERESTS

Multiphysics coupling; Contact and fracture mechanics; Mechanics and physics of surfaces and interfaces

SELECTED HONORS AND AWARDS

- **National Scholarship**, Ministry of Education of P.R. China, 2025 & 2023
- **Zhilun Xu Excellent Student of Mechanics**, the Chinese Society of Theoretical and Applied Mechanics, 2024
- **iGEM Best Model Award**, iGEM Committee, 2023
- **Zichen Scholarship**, Chu Kochen Honors College, 2023

ACADEMIC ACTIVITIES

Reviewers for Scientific Journals: Journal of the Mechanics and Physics of Solids (2024); International Journal of Mechanical Sciences (2025); Physics of Fluids (2025); Acta Mechanica Solida Sinica (2026); Chinese Journal of Solid Mechanics (2026); Journal of Sound and Vibration (2026)

Conference Services:

- [1] Session Chair of Symposium 4 (Session 6) of the 32nd International Conference on Computational & Experimental Engineering and Science (ICCES2026).

COMMISSIONS OF TRUST

- [1] **L.Z.C. Chen** and W.Q. Chen. Mathematical Formulation of Linear Elastic Fracture Mechanics. In: Handbook of Fracture Mechanics, edited by W. Yang, H.J. Gao, and X.Q. Feng. (pp. XXX-XXX), Singapore: Springer, 2026. (invited chapter from [Prof. X.Q. Feng](#))
- [2] **L.Z.C. Chen**, Y.H. Chen, G.X. Zhu, J.Y. Li, and W.Q. Chen. Progress in contact analysis of finite-sized inhomogeneous media. *Chinese Journal of Solid Mechanics*, vol. 47, no. 4, pp. 443-454, 2026. doi:[10.19636/j.cnki.cjcm42-1250/o3.2025.048](https://doi.org/10.19636/j.cnki.cjcm42-1250/o3.2025.048) (invited paper from [Prof. G.Z. Kang](#))
- [3] **L.Z.C. Chen**, G.X. Zhu, Y.H. Chen, C.W. Lim, and W.Q. Chen. AI-enabled high-throughput characterization of material properties based on indentation response. *MechanoEngineering*, vol. 1, no. 1, 014301, 2026. doi:[10.1063/5.0284635](https://doi.org/10.1063/5.0284635) (invited paper from [Prof. T.J. Lu](#))
- [4] **L.Z.C. Chen**, W.Q. Chen, and C.W. Lim. Symplectic contact analysis of a film-substrate system for high-throughput material characterization. *Mechanics of Advanced Materials and Structures*, vol. 32, no. 24, pp. 6098-6114, 2025. doi:[10.1080/15376494.2025.2508354](https://doi.org/10.1080/15376494.2025.2508354) (invited paper from [Prof. X.Q. Feng](#))

-
- [1] Symplectic contact analysis of graded soft electroactive materials. The 32nd International Conference on Computational & Experimental Engineering and Sciences. Hongkong, China. August 7-12, 2026. (invited talk from [Prof. C.H. Linghu](#))

- [2] Symplectic contact analysis for finite-sized bi-directionally graded plane with multi-field coupling. The 31st International Conference on Computational & Experimental Engineering and Science. Changsha, Hunan, China. May 26-29, 2025. (invited keynote talk from **Prof. K. Zhou**) (on behalf of Prof. W.Q. Chen)

RESEARCH PROJECTS

- Fracture analysis of viscoelastic flexible piezoelectric materials, supported by the Open Foundation of the State Key Laboratory of Fluid Power and Mechatronic Systems, *Jun. 2026 – Apr. 2028*, Participant, ¥ 200,000
- Symplectic contact analysis, supported by the China Association for Science and Technology Young Elite Scientist Sponsorship Program (doctoral student special plan), *Jan. 2026 – Dec. 2027*, **Principal Investigator**, ¥ 40,000
- Material characterization via contact analysis, supported by the Qiushi Rising Star Program of Zhejiang University, *Jan. 2026 – Jun. 2028*, **Principal Investigator**, ¥ 90,000
- Fundamental mechanical problems in nanoimprint under multi-field coupling, supported by the National Natural Science Foundation of China (No. 125B2042), *Jan. 2026.01 – Dec. 2027*, **Principal Investigator**, ¥ 300,000
- Mechanical theories and experimental methods for high-throughput characterization of long-term service performance of materials, supported by the National Natural Science Foundation of China (No. 12192210), *Jan. 2022 – Dec. 2026*, Participant, ¥ 15,000,000
- Whole-Process digital control architecture and optimization decision framework for laboratory, supported by the Marketing Service Center of State Grid Zhejiang Electric Power Co., Ltd. (No. SGZJYF00LZJS2200072), *Jun. 2022 – Feb. 2023*, Participant, ¥ 1,400,000
