Education

- **Department of Engineering Mechanics, Zhejiang University** *Sept. 2024 – Present*
  Ph.D. Mechanics
  Supervisors: Prof. W.Q. Chen & Prof. C.W. Lim
- **Chu Kochen Honors College, Zhejiang University** *Sept. 2020 – Jun. 2024*
  B.E.(Honors Degree) Engineering Mechanics
  Supervisor: Prof. W.Q. Chen

Research Interests

Multiphysics coupling; Contact and fracture mechanics; Mechanics and physics of surfaces and interfaces

Selected Honors and Awards

- **Young Elite Scientist Sponsorship Program (PhD Candidate)**, China Association for Science and Technology, *2025*
- **Qiushi Rising Star Program**, Zhejiang University, *2025*
- **Zhilun Xu Excellent Student of Mechanics**, Chinese Society of Theoretical and Applied Mechanics, *2024*
- **National Scholarship**, Ministry of Education of P.R. China, *2026* & *2025* & *2023*

Academic Activities

Reviewers for Scientific Journals: Journal of the Mechanics and Physics of Solids; Journal of Sound and Vibration; International Journal of Mechanical Sciences; Physics of Fluids; Scientific Reports; Acta Mechanica Solida Sinica; Chinese Journal of Solid Mechanics

Conference Services:

[1] Session Chair of Symposium 4 of ICCES2026.

Invited Talks

[1] Symplectic contact analysis of graded soft electroactive materials. The 32nd International Conference on Computational & Experimental Engineering and Sciences. Hongkong, China. August 7-12, 2026. **(invited talk)**

[2] Symplectic contact analysis for finite-sized bi-directionally graded plane with multi-field coupling. The 31st International Conference on Computational & Experimental Engineering and Science. Changsha, Hunan, China. May 26-29, 2025. **(invited keynote talk)** (on behalf of Prof. W.Q. Chen)

Research Projects

- Fracture analysis of viscoelastic flexible piezoelectric materials, supported by the Open Foundation of the State Key Laboratory of Fluid Power and Mechatronic Systems, *Jun. 2026 – Apr. 2028*, Participant, ¥ 200,000
- Fundamental mechanical problems in nanoimprint under multi-field coupling, supported by the National Natural Science Foundation of China (No. 125B2042), *Jan. 2026 – Dec. 2027*, **Principal Investigator**, ¥ 300,000
- Mechanical theories and experimental methods for high-throughput characterization of long-term service performance of materials, supported by the National Natural Science Foundation of China (No. 12192210), *Jan. 2022 – Dec. 2026*, Participant, ¥ 15,000,000
